

Wireless Loadshackle

Product information

Wireless loadshackle with low headroom and a load-centering bobbin.

Battery type/life: Loadcell 4 x AA Alkaline/Load cell 1200 hours continuous.

Accuracy: $\pm 1\%$ of applied load.

Frequency: 2.4 GHz.

System range: 700 m.

Data rate: 3 updates per second.

Protection: IP67.

Temperature range: -10°C up to $+50^{\circ}\text{C}$.

Note: Safety factor when used with a load bobbin.

Safety factor: 5:1

Wireless Loadshackle
