

Fall Arrest Harness POWERTEX HW PLUS r-PET

Product information

Work positioning D-ring

Chest anchoring

Rear / dorsal D-ring

The POWERTEX HW PLUS fall arrest harness is very comfortable and offers higher capacity than the standard with 140 kg user capacity. It is well-designed with a comfortable waist belt and equipped with soft shoulder/back and waist paddings. The harness is very quick and easy to put on using high-quality click buckles in the chest, waist, and leg positions.

On top of all that, the webbing is entirely made of recycled polyester (r-PET), making this harness also an excellent choice for customer.

Features: All webbing is made from recycled polyester (r-PET)

Material: Webbing is made from Recycled Polyester (r-PET), the material is free from hazardous chemicals. Steel buckles and aluminum D-rings

Marking: According to standard, CE-marked, supplier symbol, product identification, size/length, production date and serial number.

Temperature range: -35°C up to 50°C

Standard: EN 358, EN 361

Fall Arrest Harness POWERTEX HW PLUS r-PET
